

Elisabeth Remak-Honnef

German Studies in the United States

Vortrag am 6th Frankfurt Scientific Symposium, GNARP und wie sie die Welt sieht: Aussichten transatlantischer Partnerschaft im digitalen Zeitalter: 5.10.2006 - 7.10.2006

To stimulate further discussion, I would like to briefly tackle the following questions:

- How can one become informed about what is going on in German Studies in the US?
- What kinds of American guides to German resources are available?
- What kinds of German Studies resources are being produced in the US?
- What do we know about how scholars are using (or not) these guides and resources?
