

Arachnology and the Internet

The Internet has become a very useful place to find information on various subjects. At the moment however you can hardly find anything about spiders and their relatives.

In cooperation with Mark STOWE and Al CADY from the AAS, a new mailing list is started named „arachnology“. In the near future we envision that the discussion list's primary focus will be the creation of arachnological databases on the Internet. Discussion on the list will however cover many other topics that are of interest to arachnologists and their societies.

Everyone with E-mail access can join the list by sending a message to:

Majordomo@ufsia.ac.be

with in the body of the message:

*subscribe arachnology
end*

You than receive a message with a short description of the list. After you have subscribed, you can post a message to the entire group by sending it to:

arachnology@ufsia.ac.be

More information on this mailing list can be obtained from the list owner:
