

Lectotype of *Potentilla argenteiformis* Kauffm. (Russia, Moskovskaja Oblast: Serpukhov, s.a., N.N. Kauffmann, MW).

Ivan Gubanov 2002: Catalogue of type specimens of vascular plants from Moscow University Herbarium (MW)(in Russian).

Transcription: Lectotypus (S.R. Mayorov, I.A. Gubanov, h.l.[=hoc loco, a latin equivalent of "selected here" widely adopted in Russian literature]): Russia, Podmoskoviye [Moscow Province] (a specimen is labeled with diagnosis of a new species written by N.N. Kauffmann himself and completely correspond to protologue). Indication on location of type in LE (Flora SSSR, 1941, 10: 151) is erroneous.
