

Tropical Bryology 20:139, 2001

Short Notes

A new combination in *Chionoloma* Dix. (Musci, Pottiaceae)

After publication of the partial revision of *Symblepharis* Broth., Asian material (Sollman 2000), I came to realize that a new combination in *Chionoloma* Dix. is necessary; see especially Mew (1992).

Chionoloma bombayense (C. Müll.) Sollman comb. nov. (*Trichostomum bombayense* C. Müll., Syn. Musc. 2: 6628, 1851. Type: (India), Bombay, herb. Kegelianum no. 10.025 (lectotype H-BR, isolecotype S).
