AUTHOR CONTRIBUTION FORM

Title	<i>Pediatric posttransplant relapsed/refractory B-precursor acute lymphoblastic leukemia shows durable remission by therapy with the T-cell engaging bispecific antibody blinatumomab</i>
First author	<i>Patrick Schlegel</i>

According to the International Committee of Medical Journal Editors (ICMJE)

(http://www.icmje.org/ethical_1author.html):

“Authorship credit should be based on: 1) substantial contributions to conception and design, acquisition of data, or analysis and interpretation of data; 2) drafting the article or revising it critically for important intellectual content; and 3) final approval of the version to be published. Authors should meet conditions 1, 2 and 3. Acquisition of funding, collection of data, or general supervision of the research group alone does not constitute authorship”.

The responsible author of this manuscript confirms that all persons designated as authors qualify for authorship, and that each author has participated sufficiently in the work to take public responsibility for appropriate portions of the content.

Responsible author (<i>author responsible for the integrity of the work as a whole</i>)
Name: Peter Lang
Institute: University Children’s Hospital Tübingen

Author contributions

Please describe the contributions of each author, indicating who was responsible for each part of the study and the preparation of the manuscript (collection of data, experiments, data analysis, generation of figures, interpretation of data, preparation of the text, etc.) :

ME, PL and RH recruited patients and were responsible for the treatment in total. ME, PL, GZ and RH decided about treatment strategy. Blinatumomab was provided by GZ from Amgen. PS, MP, H-MT, JF, CK and TF collected clinical data. HK performed PCR MRD, KEW performed FACS MRD analysis. PS and PL generated the tables and figures of the manuscript. PS and PL carried out statistical analysis. PS, PL, GZ and RH interpreted the data and wrote the manuscript; all the authors reviewed and approved the manuscript.
