

# Data Sharing Statement

Bechara. Efficacy and Safety of Adalimumab in Conjunction With Surgery in Moderate to Severe Hidradenitis Suppurativa (SHARPS).

*JAMA Surg.* Published August 04, 2021.

doi:10.1001/jamasurg.2021.3655

## Data

**Data available:** Yes

**Data types:** Deidentified participant data

**How to access data:** <https://www.abbvie.com/our-science/clinical-trials/clinical-trials-data-and-information-sharing/data-and-information-sharing-with-qualified-researchers.html>

**When available:** With publication

## Supporting Documents

**Document types:** None

## Additional Information

**Who can access the data:** Any qualified researchers who engage in rigorous, independent scientific research

**Types of analyses:** For rigorous, independent scientific research, access to anonymized, individual and trial-level data (analysis data sets), as well as other information (eg, protocols and Clinical Study Reports), as long as the trials are not part of an ongoing or planned regulatory submission is possible. This includes requests for clinical trial data for unlicensed products and indications.

**Mechanisms of data availability:** Can be requested and will be provided following review and approval of a research proposal and Statistical Analysis Plan (SAP) and execution of a Data Sharing Agreement (DSA)

**Any additional restrictions:** Access possible as long as the trials are not part of an ongoing or planned regulatory submission. Data will be accessible for 12 months, with possible extensions considered.
